

Entergy Corporation is an integrated energy company engaged primarily in electric power production and retail distribution operations.

Entergy Nuclear owns, operates, supports, and provides management services to a national fleet of **10** reactors in **8** locations in the United States

We're more than just a fleet of nuclear energy plants. We're part of a company dedicated to improving our communities and the environment.

By harnessing nuclear energy, we can help solve the challenge of climate change, reduce America's dependence on foreign oil and meet the growing needs our world demands.
